**Cépages**

100% Marselan

**Rendement**

50 HL / Ha

**Degré**

**Terroir**

Volcanic, clay & limestone. The climate is typically Mediterranean, warm and sunny with a low rainfall. Winters are mild, summers are hot and usual drought conditions fully matured the grapes.

**Vinification**

Cold maceration for 5 days at 2°C. The idea is to blend two Marselan profiles : one fresh and lively, the other almost overripe.

The fermentation of the fresh one is made around 22 °C during 7 days in contact with grapes. The overripe one is made at 30 °C during 20 days of maceration. It represents 80% of our final blending.

**Élevage**

Wine is aged for six months in stainless steel vats before bottling.
